SUMMARY

Detail-oriented Data Analyst skilled in SQL, Python, Power BI, DAX, and Excel. Experienced in data cleaning, ETL, dashboard creation, KPI development, and trend analysis. Passionate about transforming raw datasets into meaningful insights that drive business decisions and improve operational performance.

TECHNICAL SKILLS

Languages: SQL, Python

Databases: Microsoft SQL Server, MySQL

Tools: Excel, Power BI, Power Query, Visual Studio Code, Git/GitHub

Libraries: Pandas, NumPy, Matplotlib, Seaborn

Techniques: ETL, Data Cleaning, Data Modeling, Dashboarding, KPI Tracking, Statistical Analysis

EXPERIENCE

Data Analytics Intern

Feb 2025 – July 2025

FL Technologies

- Analyzed large datasets using SQL, Excel, and Power BI to support reporting and improve decision-making efficiency by 25%.
- Built and maintained 10+ interactive Power BI dashboards with KPIs, resulting in a 30% increase in data-driven insights.
- Developed ETL workflows in Power Query and SQL, achieving 99.9% data accuracy and significantly reducing errors.
- Performed in-depth trend and variance analysis using advanced Excel and Power Query, supporting revenue growth strategies.

PROJECTS

Blinkit Sales Analysis Dashboard | *Power BI, Power Query, DAX*

[Source Code](#)

- Developed an interactive Power BI dashboard analyzing 1,000+ sales records across outlets and product categories.
- Created 12+ KPIs including Total Sales (\$1.20M), Average Sales, Item Count, and Outlet Contribution to support business reporting.
- Enhanced data accuracy by 100% through data cleaning and modeling using Power Query and DAX.
- Identified key insights such as Medium-sized outlets contributing \$508K and Tier-3 cities generating 45% of total sales.

OTT Domain Data Analytics | *SQL, Python, Pandas, Matplotlib*

[Source Code](#)

- Conducted end-to-end EDA on OTT platform datasets to uncover patterns in viewer interest, genre popularity, and content availability.
- Used SQL and Python to clean and analyze over 4,000 titles, improving dataset reliability by 95% through data validation and transformation.
- Generated actionable insights on top-performing genres and release trends to support OTT content strategy and decision-making.
- Created visual reports using Matplotlib and Pandas to summarize platform-wise content distribution and yearly trends.

EDUCATION

B.Tech in Artificial Intelligence and Machine Learning

2021 – 2025

Dr. K V Subba Reddy Institute of Technology, Kurnool, Andhra Pradesh

CGPA: 7.8

CERTIFICATIONS

- **Python for Data Science** – CognitiveClass
- **SQL and Relational Databases** – IBM
- **GenAI Powered Data Analytics Job Simulation** – Forage
